

REPLACEMENT SHEET

A schematic diagram of a container assembly. It consists of a large, horizontally-oriented oval shape representing a container body, labeled with the number 3. To the left of the container body is a smaller circle, labeled with the number 15, which is filled with diagonal hatching. This circle is positioned as if it is the lid of the container. Inside the container body, on the left side, is another smaller circle, labeled with the number 14, also filled with diagonal hatching. This circle is positioned as if it is a component inside the container.
